AA Series 100% Acrylic Fluorescent or Blacklight Paints

The Allureglow USA AA Series Fluorescent/Blacklight Paints are designed for Special Effects, Stage and Theater Sets and really anywhere you are looking to Highlight or Enhance the setting when UV or Blacklights are present. These Paints are formulated using the Highest Quality Fluorescent Pigments available, which greatly enhance the vibrancy of all the Colors we offer and are 100% Acrylic, Low VOC and Waterbased for easy clean up. The AA Series Fluorescent Paints can be Brushed, Rolled however, they are best Sprayed Applied. Because these paints are transparent, you must use our AA-1000-WP White Primer as an Underbase prior to applying the AA-1000-FL Color, not doing so will result in the loss or poor vibrancy of the Color. When applying, use 2-3 Lite to Medium Coats for Best Results.

THESE PAINTS ARE FOR INDOOR USE ONLY AND WILL FADE IF EXPOSED TO UV/SUNLIGHT

The AA Series Fluorescent Paints are proudly manufactured in the USA and are available in Quarts, Gallons and Five Gallon Containers

Any application not referenced in the Technical Data Sheet should be pre-tested prior to any application.
